A BLOOMING Western post asks "Why do so mourn the days that go." Probably because he has a note almost due.

Sowr of the democratic and Indepeniont papers are rejoicing over what they erm the downfall of John Ketly. Other politicians bave ere this read their political obituaries and afterward proved troublesome corpses. Possibly John may be restless in the grave that his enemies have dag for him.

Down in "Arkansaw" there is a lively prospect of a very pretty struggle over the successorship to Hon. James D. Walker's senatorial shoes. Gov. Berry, Hon. 'oindexter Dunn, and Hou. James K. Jones are credited with pessessing the best chances, but Messrs. Walker, Rector, Bell, Duval, Mansfield, and several others

NEW offense in the eriminal calendar is the stealing of gravestones and selling them to-marble dealers to work over. In Brooklyn has been arrested for urloining some from Greenwood comeery. He denies that he is guilty, but the gravestones are missing, and evidently some one has had a hand in their removal. If this kind of larceny becomes general there will be necessity for severe punishment for the offenders.

THE senatorial situation in Illinois promises to be further complicated through the action of W. C. Headen, one stick to him to the end. It is to be feared that Mr. Hesden has an unjustifiable yearning to fill the sounding trump of

THE British channel fleet has been ordered to prepare for active service at once, What the movement portends is a matter of conjecture, but it is evidently an intimation to the continental powers that mation to the continental powers that England does not propose to submit to too much crowding. It is suspected that the angry protest of the Australiaus against Germany's proposed occupation of part of New Guines has produced such an effect upon the home government that Mr. Glad-stone has resolved to block Bismarck's game. If such is the case the great supeforitator England as a pared power is so mier will have to back down from his

project in this case.

THE bill introduced in congress by Mr. Cor, of New York, creating the office of assistant chief signal officer, with the rank and pay of a colonel of infantry, to provide for the promotion of Lieut. Greely, is a meritorious one, and it should pass. It is such a recognition of a brave and distinguished officer as the country approves. No other way seemed open for appropriately rewarding Lieut, throughout the evening. The leading roles were in the hands of Mr. J. B. Polk, Mr. Raymond Holmes, Miss Julia A Polk, Miss Elsio prome, and Miss Patrice. In the last act Miss for the position, and should the bill pass the country would congratulate itself that eventually he would become the head of the signal service bureau.

A DEMOCRATIC lieutenant of the Cincinnati police thought he was doing a good thing for his party at the election last October when he "rounded up" 152 rapublican votors and put them in the station house, without any crime heing charged against them, and let them cut without trial after the election. On last Saturday Judge Baxter, of the United States court, sentenced the superserviceable lieutenant to the county jail for one year, expressing his regret that the law did not allow him to inflict a heavier penalty. Mr. Follett rapublican votors and put them in the inflict a heavier penalty, Mr. Follett has had a great deal to any about republican frauds at the October election, but we have not observed any remarks from him in condemnation of the outrareous invasion of the rights of qualified voters for which Lieutenant Muller has been righteously punished. FORD'S OPERA HOUSE.
"Burr Oaks" opened before a fair audience
at Ford's Opera House last night. The play is of the emotional order, and is very similar in its construction to the Silver King. It hinges on a supposed murder in which the wrong man gets the murderous blow. "Burr Oaks," the quasi murderer, makes his escape, and after a variet life returns to find his fancied crime a delusion. The plot is nicely worked out and gives occasion to many striking and

The company led by Mr. J. B. Polk, it may be said without prejudice, is not an ideal one for the interprotation of French In Favor of a Free Canal.

The secretary of war yesterday transmitted to the senate, in response to a resolution asking for a detailed report concerning the Portage Lake and Lake Superior ship canal, with a view to securing the canal for a free waterway, the report of engineer officers on the subject. Col. Parke, acting chief of engineers says that it will appear from the report of Col. Poe, the officer who investigated the subject, that the respective companies are willing to dispose of their properties to the United States, free of all incumbrances of any kind, for \$550,000, about one-tenth the cost of the improvement, and that Col.
